Tugas Algoritma

Nama : M. Ghozi Syah Putra

NIM : 21254323029

1. FOR

1.1

```
0
      print("Masukan kata yang akan di looping : ")
1
      kata = input()
      print("Masukan jumlah looping ")
2
3
      looping = int(input())
      for perulangan in range(1, looping + 1, 1):
4
5
            print(kata)
Masukan kata yang akan di looping :
                                                   Ghozi
Masukan jumlah looping
Ghozi
Ghozi
Ghozi
Ghozi
Ghozi
```

```
angkal = 1
print("Masukan angka 1 sampai ... ")

jumlah = int(input())

print("Angka ganjil yang ada adalah : ")

for loop in range(0, jumlah - 1 + 1, 1):

loop = angkal + loop

print(loop)
```

Masukan angka 1 sampai ...

Angka ganjil yang ada adalah :

1

3

5

7

9

10

2. WHILE

2.1

5

6

7

i = i + 1

print("Dst...")

if not(i <= 25): break

#Exit loop
